

## Comprehensive & Reliable Trans-Pacific Route Network

- Large volume commitments with top 15 ocean carriers in the Pacific allow for very competitive rates and preferential loading when space is tight
- 37 offices in Asia offering “one-stop-shop” solution for customers that have multiple supply points with local dray, consolidation and Customs clearance available for U.S. importers
- One local U.S. contact for all logistics needs from source to destination, including domestic intermodal and truck delivery nationwide
- Executive pricing council regularly analyzes the market and customer base to ensure contracts are structured to maximize competitiveness and meet service requirements
- Routing flexibility to meet pricing and delivery date requirements
